

JioFi LTE-Advanced Mobile Hostspot Router with Display (Blue Box)

Sale Price: 1650.0

PRODUCT ID: 0011967

Basic Information	
CPU	High-End Chip Fast And Stable
Basic Information	
Others	Compact and Portable Design: Lightweight and pocket-sized for easy portability, making it ideal for travel, commutes, or situations where Wi-Fi isn't readily available.
Key Features	
Button	One-Button Start Easy And Convenient
Speed	150Mbps High Speed
Main Spec	
Battery Life	The battery capacity may vary depending on the specific model, but it typically offers around 10 hours of continuous use on a single charge (actual life may vary depending on usage and network conditions). The router can be recharged using a micro USB cable and a power adapter (adapter not always included, confirm with retailer).
Connectivity	
Connectivity	4G LTE-Advanced Connectivity Provides fast and reliable internet access using a Jio SIM card (sold separately). LTE-Advanced technology can potentially offer faster speeds compared to standard 4G LTE, but actual speeds will depend on network conditions and your data plan.
WiFi Technology	Wi-Fi Hotspot: Creates a personal Wi-Fi network that allows you to connect up to 10 devices simultaneously (exact number may vary depending on usage). This could include smartphones, tablets, laptops, and other Wi-Fi-enabled devices. Super Signal Connect Up To 10 Wi-Fi
Physical Specifications	
Battery Capacity	2100mAh Battery More Durable
WARRANTY INFORMATION	
Warranty	6 months warranty
