

Paper CUTTER MACHINE A3

Sale Price: 2800.0

PRODUCT ID: 0012008

Feature / Attribute	Product Specification Details	Implementation Impact
Machine Category	Heavy-Duty Manual Stack Paper Cutter / Guillotine	Formulated for high-volume, straight-line precision cutting of thick paper bricks.
Maximum Cutting Width	430 mm to 460 mm (Up to 18 inches)	Comfortably handles A3 sheets along their long edge and ledger/tabloid media.
Cutting Stack Capacity	~400 sheets of standard 80gsm paper (40mm thickness)	Slices an entire ream of paper in a single motion, boosting print shop throughput.
Base Construction	Heavy-Duty Solid Steel Plate Frame	Prevents warping or shifting during high-pressure cuts to maintain alignment.
Blade Composition	Hardened High-Carbon Steel (Resharpenable/Replaceable)	Retains a razor-sharp edge over thousands of cycles through paper, cardstock, and PVC.
Paper Clamping System	Interlocked Positive Manual Locking Clamp	Compresses the stack tightly to eliminate sheet dragging, sliding, or fan-outs.
Alignment Utilities	Adjustable Mechanical Back-Gauge & Side Guide	Provides a rigid structural stop for flawless, identical, repeatable batch trimming.
Measuring Scale Grid	Embossed Metric (mm/cm) & Imperial (Inches) Grid	Allows rapid, visible alignment checks for custom sizes without external rulers.
Standard Size Presets	A3, A4, B5, A5, B6, A6, Letter, Legal	Printed directly onto the bed to expedite standard booklet and brochure trimming.
Integrated Safety Locks	Dual-Stage Safety Lever Latch & Protective Guard Shield	Locking pin locks blade in the upright position until explicitly released by the operator.
Primary Material Targets	Office Bonds, Cardstock, Photo Film, Leather, PVC Sheets	Multi-material cutting capability for laminates, book binding, and packaging crafts.
Product Footprint Weight	Approximately 18 kg to 26 kg (Industrial Bench Design)	Substantial mass provides an inherently stable base that resists tipping or rocking.
