DTECH FIBER OPTIC HDMI CABLE D-A SUPPORT 8K 20M # DT-HF3020 BLACK

Dtech DT-HF3020 20 Meter Type-D to Type-A Dual Connector Fiber Optic HDMI Cable

The Dtech **DT-HF3020** 20 Meter Fiber Optic HDMI Cable is an amazing, high-performance option for delivering high-quality music and video over great distances. The Dtech DT-HF3020 HDMI Cable, designed with cutting-edge HDMI 2.1 technology, produces magnificent visuals with resolutions of up to 8K@60Hz, 4K@120Hz, and 2K@144Hz, as well as HDR and Dynamic HDR support for rich colors, deep contrasts, and lifelike detail. This cable's ultra-high 48Gbps bandwidth allows for lightning-fast data transfer and robust communication, making it perfect for demanding situations such as gaming setups, home theaters, AV presentations, conference rooms, and professional setups. The Dtech DT-HF3020 20-Meter HDMI Cable supports sophisticated audio technologies such as eARC, Dolby Atmos, DTS:X, and uncompressed audio formats, providing immersive, cinema-quality sound. This cable's hybrid fiber optic + copper core maintains signal quality and decreases latency even throughout its 20-meter length. Gold-plated HDMI Type-D (Micro) to HDMI Type-A (Standard) connections prevent corrosion and provide a secure connection, while the slender, lightweight PVC jacket is durable and protects against EMI and RFI interference. Its plug-and-play architecture allows for easy installation without the need for additional power. The Dtech DT-HF3020 stands out as a dependable, future-proof alternative for anybody who need great performance and quality in a long-range HDMI cable, whether for professional AV installations, high-end gaming, or luxury home theater systems.
