

VENTION COQBL USB 2.0 Type-A to Type-B Male Print Cable - 10M

Sale Price: 1050.0

PRODUCT ID: 0005137

Feature / Attribute	Product Specification Details	Implementation Impact
Product Brand / Model	Vention COQBL	Assures precise manufacturing tolerances, perfect terminal fitment, and a robust hardware life.
Product Category	Long-Distance USB 2.0 Type-A to Type-B Printer Cable	Establishes a highly secure, long-range wired connection between a computer host and office equipment.
Interface Standard	High-Speed USB 2.0 Protocol	Delivers steady data transfer bandwidth up to 480 Mbps, making document spooling quick and seamless.
Length Dimension	10.0 Meters (Approx. 32.8 Feet)	Provides ultra-extended workspace and warehouse routing, allowing hardware to be placed in completely separate rooms or production zones.
Noise Filtering	Built-in Double Magnetic Ferrite Rings	Extensively suppresses electromagnetic and radio frequency noise (EMI/RFI) over the long-distance transmission line.
Power Throughput	Supported Up to 2.0 Amperes (2A Max)	Safely provides stable electrical current delivery for hardware accessories requiring bus power over the link.
Internal Wire Gauge	24 AWG (Power Line) + 28 AWG (Data Line) Build	Minimizes loop resistance to completely avoid print lagging, timeouts, and signal drops over the full 10-meter run.
Connector Plating	Corrosion-Resistant Hardened Nickel-Plated Plugs	Prevents terminal rust and outer wear, ensuring a strong socket grip over thousands of cycles.
Outer Jacket Build	Toughened Flexible Polyvinyl Chloride (PVC) Black	Features a highly rugged outer sleeve with a reinforced 11mm joint tail to survive constant bending and pulling.
System Integration	Universal Driverless Plug-and-Play Ecosystem	Runs natively on Windows, macOS, and Linux without requiring separate software downloads or configurations.
