

HOCO J158 Pro 10000mAh 22.5W Power Bank

Sale Price: 1400.0

PRODUCT ID: 0000014

- **High-capacity 10000mAh battery** – provides enough power to keep your devices running all day long. Charge your smartphone multiple times or top up your tablet on the go.
- **Fast charging support** – quickly recharge your devices with up to 22.5W output. Compatible with popular fast charging protocols like PD3.0/QC3.0 and more.
- **Simultaneous charging of up to three devices** – use one Type-C and two USB-A ports at once to charge multiple gadgets: smartphone, wireless earbuds, and smartwatch all together.
- **Compact and ultra-portable design** – slim profile (142 × 64 × 22.5mm) fits easily in pockets or small bags. Weighing only 290g, it's ideal for travel-friendly use without adding bulk.
- **LED digital display** – check the remaining battery level with a short press of the power button. The green fast charging indicator shows when PD/QC fast charging is active.
- **Multiple-level protection system** – built-in safety features protect your devices from overheating, overcharging, and short circuits. Intelligent IC recognition ensures compatibility with 99% of USB-charged digital devices.
