

KONICA TN-114 PHOTOCOPY TONER (CHINA)

Sale Price: 1250.0

PRODUCT ID: 0009253

Feature / Attribute	Product Specification Details	Implementation Impact
Product Component	Monochrome Copier Toner Cartridge Assembly	Direct drop-in consumable designed to replace depleted toner supplies.
Manufacturing Origin	Grade-A Compatible (China Manufacturing)	Provides a highly economical alternative to expensive OEM cartridges.
Color Output Profile	Monochromatic Black (Mono)	Configured exclusively for heavy-duty black-and-white copying and text processing.
Toner Powder Base	Fine Carbon-Resinous Polymer Formulation	Ensures a uniform triboelectric charge for spotless, high-contrast document imaging.
Page Yield Capacity	Approximately 11,000 standard pages (per bottle)	Rated output based on standard 5% continuous page coverage testing.
Packaging Profile	Twin-Pack Option (Usually contains 2 toner bottles per box)	Maximizes office uptime by providing an immediate, secondary backup supply bottle.
Net Toner Weight	~413 grams per individual bottle	Delivers an optimal powder volume to sustain long production copy cycles.
Bizhub Copier Models	Bizhub 162, 163, 1611, 210, 211, 7516, 7616	Cross-compatible across a broad legacy lineup of mid-speed office copy systems.
Thermal Threshold	Calibrated for low-melt enterprise fusing	Melts quickly at precise fuser settings to prevent page ghosting or smearing.
Primary Failure Signs	Faded text, light gray prints, vertical white streaks, low toner alerts	Indicates that the internal reservoir is depleted or the powder requires agitation.
Storage Requirements	Keep dry, cool, and flat between 10°C to 30°C	Prevents the dry powder from clumping, caking, or solidifying inside the cartridge shell.
Maintenance Level	User-replaceable sliding lock cartridge design	Slides quickly into the front copier access bay without requiring tools or technical help.
