

FJGEAR 1.5 Meter USB Printer Cable

Sale Price: 250.0

PRODUCT ID: 0010291

Feature / Attribute	Product Specification Details	Implementation Impact
Brand	FJGEAR	Verified manufacturer known for reliable office connectivity peripherals.
Product Type	USB Printer / Scanner Data Cable	Specifically wired for high-fidelity data transmission to printing peripherals.
Model Variation	1.5 Meter Standard	Optimal mid-range size for neat workspace setups without excessive slack.
Connector Type A	USB 2.0 Type-A Male	Fits into standard desktop PCs, laptops, and USB expansion hubs.
Connector Type B	USB 2.0 Type-B Male	The square-shaped interface required by most standard printers and scanners.
Interface Standard	USB 2.0	Fully backward compatible with legacy USB 1.1 and 1.0 hardware.
Data Transfer Speed	480 Megabits per second (Mbps)	Ensures rapid document spooling and seamless data transmission.
Cable Length	1.5 Meters (Approx. 4.9 Feet)	Delivers a flexible reach across desks while minimizing signal decay.
Conductor Material	High-purity Oxygen-Free Copper (OFC)	Low resistance core that maximizes electrical and data conductivity.
Shielding Type	Dual-layer (Aluminum foil + Braid)	Effectively blocks external EMI and RFI interference to eliminate errors.
Connector Plating	Nickel-plated	Prevents surface oxidation and maintains a solid physical connection over time.
Outer Jacket Material	Heavy-duty Polyvinyl Chloride (PVC)	Provides excellent elasticity, environmental resistance, and overall durability.
OS Compatibility	Universal Plug-and-Play	Works natively across Windows, macOS, Linux, and ChromeOS without driver installs.
Supported Devices	Printers, Scanners, Hubs, DACs	Versatile design compatible with any Type-B target port device.
