

FJGEAR 5 Meter USB Printer Cable

Sale Price: 550.0

PRODUCT ID: 0010293

Feature / Attribute	Product Specification Details	Implementation Impact
Brand	FJGEAR	Reputable manufacturer specializing in commercial-grade interface cabling.
Product Type	Maximum-Length Passive USB Printer Cable	Allows long-distance deployment without the added bulk of active booster pods.
Cable Length	5.0 Meters (Approx. 16.4 Feet)	Ideal for connecting standalone printer stations or remote office desks.
Connector Type A	USB 2.0 Type-A Male	Connects securely to laptops, desktop towers, and terminal workstations.
Connector Type B	USB 2.0 Type-B Male	Interfaces directly with standard square printer ports and image scanners.
Interface Standard	USB 2.0 High-Speed	Offers universal backward compatibility with old USB 1.1 hardware.
Data Transfer Speed	480 Megabits per second (Mbps)	Supplies consistent bandwidth for heavy documents and high-resolution scans.
Conductor Material	High-Purity Oxygen-Free Copper (OFC)	Heavy-gauge core engineered specifically to combat signal decay over 5 meters.
Shielding Type	Dual-Layer (Aluminum Foil + Braid)	Suppresses signal crosstalk and ambient office electromagnetic interference.
Connector Plating	Corrosion-Resistant Nickel Plating	Inhibits surface oxidation to preserve optimal contact and transmission quality.
Outer Jacket Material	Heavy-Duty Polyvinyl Chloride (PVC)	Insulates the internal components against stretching, pulling, and crushing.
OS Compatibility	Native Plug-and-Play	Requires zero driver installations across Windows, macOS, Linux, and ChromeOS.
Supported Devices	Printers, Scanners, Plotters, Server Hubs	Universally compatible with any hardware utilizing a standard Type-B port.
