

G&G DL-5120 Drum Unit

Sale Price: 3400.0

PRODUCT ID: 0011152

Feature / Attribute	Product Specification Details	Implementation Impact
Brand	G&G (Premium Compatible Alternative)	Delivers original equipment standard output at a reduced cost.
Model Designation	DL-5120	Matches original Pantum numbering protocols for direct identification.
Component Category	Photoconductor OPC Drum Unit	Handles electrostatic image formation independently of toner supplies.
Print Technology	Monochromatic Laser	Built exclusively to manage high-speed black-and-white data transfer.
Page Yield Capacity	Up to 30,000 Pages	Provides long maintenance cycles certified under ISO/IEC test standards.
Smart Chip Integration	Pre-installed IC Smart Chip	Communicates seamlessly with printer logic boards to report tracking info.
Color Target	Monochrome Black	Tailored to execute sharp, high-contrast text and solid line art graphics.
Supported Printers (BP)	Pantum BP5100DN, BP5100DW	Drops perfectly into heavy-duty single-function desktop print systems.
Supported Printers (BM)	Pantum BM5100ADN, BM5100ADW	Engineered to handle mechanical alignment inside network copiers.
Supported Printers (BM-FD)	Pantum BM5100FDN, BM5100FDW	Cross-compatible with premium enterprise duplex fax/scan workstations.
Configuration Architecture	Separated Drum and Toner Cartridge	Minimizes ongoing system waste and drops cost-per-page spending levels.
OPC Surface Coating	Wear-Resistant Light-Sensitive Resin	Defends against micro-scratching to stop vertical print lines and smudges.
OS Framework Utility	Driverless Plug-and-Play Integration	Preserves universal cross-platform support across host operating systems.
