## MSI GeForce RTX 2060 VENTUS 12G OC GDDR6 Graphic Card

MSI GeForce RTX 2060 VENTUS 12G OC GDDR6 Graphic Card brings the power of real-time ray tracing and AI to your PC games. The GPU features 12GB of GDDR6 VRAM and a 256-bit memory interface, offering improved performance and power efficiency over the previous Turing-based generation. NVIDIA Ampere is the 2nd generation RTX architecture. It features up to twice the FP32 throughput, 2nd Gen RT Core throughput, and 3rd Gen Tensor Core throughput of the previous generation. It also features a Samsung 8N custom process and utilizes GDDR6X VRAM. The NVIDIA GeForce RTX platform enables real-time ray tracing of objects and environments with physically accurate shadows, reflections, refractions, and global illumination. NVIDIA DLSS (Deep Learning Super Sampling) is AI rendering that boosts frame rates while still providing optimal image quality using the dedicated AI processing Tensor Cores on the GeForce RTX platform. This gives you the performance you need to maximize ray tracing settings and resolutions for an immersive visual experience. It comes with 3 years warranty.
